SET-UP

1. Remove the Fit-Chair and Fitness Ball from the box and check for shipping damage. It is normal for the fitness ball to have slight creases or fold marks when first inflated.
2. Allow ball to reach room temperature before inflating.
3. Screw inflator tip onto tip of pump. The inflator tip can also be used with most standard bike pumps. Insert inflator tip into hole in Fitness Ball. Inflate the ball until very firm. Initially the ball may seem too small for the chair. 24-48 hours after the initial inflation, the ball will “relax” and you will be able to top off with air to full size. This is normal.
4. Remove inflator tip from ball and immediately insert plug completely into hole. Your ball is now ready for use. Slight leakage may occur over time. Top off when necessary.
5. Assemble chair as shown on the following pages.
6. Place ball in the chair base. Sit on the top center of ball chair with feet flat on floor and shins vertical. Thighs should be parallel to the floor. If necessary, deflate ball to desired height, maintaining adequate firmness.
